

## Guiding Care with Compassion and Clarity

When aging brings uncertainty, transitions, or crisis, you need a partner you can trust. At ElderCare Consultants, we are committed to providing thoughtful, personalized care management that eases stress and empowers families to make informed decisions with confidence.

### What is an ElderCare Care Manager?

An ElderCare Care Manager is a highly experienced Registered Nurse or Licensed Social Worker, many with advanced training in geriatric care, social work, and health coordination.

Our team brings over 150 years of combined experience supporting older adults, individuals with disabilities, and their loved ones through complex medical, emotional, and life transitions.

### What Can an ElderCare Care Manager Do for You?

We serve as expert guides—assessing needs, identifying strengths, creating care plans, coordinating services, and stepping in during emergencies.

Whether you're planning ahead or facing immediate concerns, we walk beside you every step of the way to ensure safety, dignity, and peace of mind.

## Does This Sound Familiar?

I feel like we need someone on our side—someone who knows the system and can make sure my parent is getting the best care possible.

Between the doctors, hospital bills, home care options, and insurance paperwork, I'm overwhelmed. I don't even know where to start.

Our family is struggling to agree on what's best for our aging parent. We need a neutral expert who can guide us and bring everyone together

*At ElderCare Consultants, we hear these concerns every day. That's why we step in as experienced care managers—to coordinate, advocate, and bring clarity when families need it most.*

**Mike Justin**

Owner & Senior Care Manager,  
ElderCare Consultants PSC

Mike Justin, is the founder of ElderCare Consultants PSC.

A dedicated care manager with over 25 years of experience in senior services and family advocacy. With a master's degree in social work and licensure in the state of Minnesota, Mike specializes in guiding families through complex medical, legal, and caregiving decisions with clarity and compassion.

Known for his calm approach and deep knowledge of local resources, Mike and his team provides personalized support that helps families feel confident and informed. Under his leadership, ElderCare Consultants serves the Minneapolis/St. Paul metro area with trusted, hands-on care coordination and planning.
